Monomoy's Investment Internship Program

- Monomoy's internship program offers undergraduate students the opportunity to work as a **financial analyst** at an operationally-focused middle market **private investment firm**.
- Interns work directly with our **Investment Team** in evaluating early and late-stage equity and credit investment opportunities, as well as our **Operating Team** in a portfolio management setting.
- The **10-week program** includes:
 - ✓ Best-in-class internal and 3rd party training
 - ✓ Comprehensive onboarding
 - ✓ Networking opportunities
 - ✓ Hands-on deal experience
 - ✓ Mentorship programs
 - ✓ Onsite visits to our portfolio companies
 - ✓ Exposure to Senior Leadership
- Each year **two rising seniors** and **two rising juniors** are accepted to the program, with the potential to return as a full-time Investment Analyst post-graduation.

"Monomoy structures the internship in a way that will gradually immerse you into the role, but that challenges you to improve daily through training, feedback, and working on live deals. I've never met so many people who wanted to see me succeed... They've offered me many first-time experiences such as flying out to a portfolio company and seeing manufacturing processes live, talking one-on-one with CEOs, and even single-handedly pitching a potential take-private deal to the Investment Committee!"

- Joey Ramirez, Internship Class '21 & '22
